This course is accredited with 7 hours CPD

**Early
Bird Offer
Available!**

This one day course is designed to enhance all aspects of your endodontic care, based on current evidence and best practice. A correct diagnosis, in combination with the right choice of new materials and techniques, will ensure an environment that offers an extremely high probability of success and a healthy apical periodontium.

The goal of this course is to provide participants with knowledge and skills to make the practice of endodontics simple and predictably successful. This course will be presented in an interactive seminar which includes case based lectures and a practical component using natural teeth and plastic tooth models.
