

“Axxess to Endodontics”

Presented by Dr Mehdi Rahimi & Dr Mark Johnstone

3 October 2020 • Nobel BioCare, Level 4, 7 Eden Park Drive, Macquarie Park Sydney • 8.15am-5.30pm
7 CPD Hours
\$650

A full-day course includes half-day lecture & half-day hands-on workshop

This one day course is designed to enhance all aspects of your endodontic care, based on current evidence and best practice. A correct diagnosis, in combination with the right choice of new materials and techniques and appropriate magnification, will ensure an environment that offers an extremely high probability of success and a healthy apical periodontium.

Course objectives:

The goal of this course is to provide participants with knowledge and skills to make the practice of endodontics simple and predictably successful. This course will be presented in an interactive seminar which will include care based lectures and a practical component using natural teeth and plastic tooth models. Participants will have the opportunity to practice the use of TF Adaptive rotary and Traverse Glide path files and see first-hand the use of the dental operating microscope in the location of calcified canals.

Participants are encouraged to bring accessed extracted teeth, as well as safety glasses and loupes. All other materials will be provided. Two posterior and two anterior teeth are recommended. Please access these prior to the course.

Dr Mehdi Rahimi

BSc, BDS Distinction (NZ) DClinDent (Melb), MRACDS

Mehdi graduated with a Bachelor in Dental Surgery with Distinction from the University of Otago (New Zealand) in 2002 and received his Doctorate of Clinical Dentistry (Endo) degree from the University of Melbourne in 2008. Mehdi has been actively involved in Endodontic teaching at various continued education levels, both nationally and internationally. Mehdi is an Adjunct Senior Lecturer at Charles Sturt University, a guest lecturer at Sydney University and Melbourne University, and a CPD mentor for the Australian Dental Association NSW. Mehdi has obtained a number of publications in the field of forensic dentistry and Endodontics (resin based obturation material and fractured instruments). In 2000 Mehdi was awarded the Sir Allan Wilkinson award for the most worthwhile research in Medicine and Dentistry from the University of Otago, in 2001 he was awarded the International Association for Dental Research Young Researchers Award and in 2002 Mehdi received the Pierre Fauchard Academy Award of Merit. Mehdi is the current President of the Australian Society of Endodontology (NSW branch), the immediate past-president of the Australian Asian Association of Dentists, a fellow of the International College of Dentists (FICD), a member of the Royal Australian College of Dental Surgeons in Endodontics, and a member of the Australian Dental Association (NSW) Education & Research Committee.

Dr Mark Johnstone

BDS(Hons) DCD MHLth&MedLaw

Mark graduated with a Bachelor of Dental Science with Honours from the University of Melbourne in 2008. He was on the Deans Honours List and winner of the Ernest Joske Prize in final year dentistry. He completed the Doctor of Clinical Dentistry (Endodontics) in 2014 from the University of Melbourne and was awarded the Ephraim Ehrmann Memorial Prize. He completed a Master of Health and Medical Law at the University of Melbourne in 2019. He currently works privately in both Melbourne and Sydney. He has been involved in teaching undergraduate students and lectured within Australia and is currently an adjunct senior lecture at Charles Sturt University.
